

Work Experience

- 2015 - Present

● **User Experience Designer**
 @ IBM Design ▼ Austin, TX

I collaborated, researched, designed, and developed alongside back-end developers on the user interface for IBM Graph, a database technology geared toward application developers. I conducted user interviews and articulated feedback to the back-end developers, which led to a cohesive experience that empathized with the day-to-day tasks of our target user and helped them quickly understand this new type of database technology. Outside of my regular tasks, I also helped create video projects to promote user-centered design thinking and mentored new-hire teams during their training session at IBM.
- 2014 - 2015

● **User Experience Designer**
 @ Hewlett-Packard ▼ Alpharetta, GA

I collaborated with HP's global supply chain team, where I designed data visualizations to help HP and its partners make more informed business decisions on consumer products. I also received a patent during this time for one of my visualizations that focused on customer reviews.
- 2014 - 2015

● **Graduate Teaching Assistant**
 @ Georgia Institute of Technology ▼ Atlanta, GA

I assisted in an Information Visualization course for undergraduate students. I also held office hours for student consultations about projects, homework assignments, and grades.
- 2012-2013

● **Digital Media Director**
 @ WUOG 90.5FM ▼ Athens, GA

I was responsible for the radio station's computers, recorded workflows, and maintenance of the station's website. I also hosted *TechNight*, a weekly talk show that required extensive knowledge of the tech industry.
- 2012

● **Software Tester/Quality Assurance**
 @ Y-12 National Security Complex ▼ Oak Ridge, TN

I collaborated with my co-workers on an online security questionnaire for background investigations throughout a summer internship. I received the highest ratings in each category of the performance evaluation at the end of the internship.

Education

- 2013-2015

● **Human-Computer Interaction M.S.**
 @ The Georgia Institute of Technology ▼ Atlanta, GA
- 2009-2013

● **Computer Science B.S.; Spanish Minor**
 @ The University of Georgia ▼ Athens, GA

Why Me?

I'm a driven UX and Interaction Designer with over 3 years of professional experience and a tenacity to see from the top-down but build from the ground-up. As a User-Centered Designer and Researcher, I've worked on various collaborative design projects that cover a wide range of UX and Interaction Design methods, both hardware and software-based. I'm a Human-Computer Interaction Master with a Major in Computer Science, and have a proficiency in various design tools, interaction design methods, programming languages, and video production software/processes. I'm also skilled in conversational and written Spanish, and have a proven ability to exceed high standards in demanding work environments.

Skills

- Sketch
- Adobe Premiere Pro
- Adobe Illustrator
- SOFTWARE** Adobe After Effects
- Adobe Photoshop
- Adobe Audition
- Keynote
- MS Word
- MS Excel
- MS PowerPoint

- PROGRAMMING** HTML5/CSS3
- JavaScript
- Python
- Java
- C/C++

- ENVIRONMENTS** Windows
- Mac OS
- Linux (Ubuntu)
- GitHub
- FTP
